Practice Exam

The questions contained in this AP[®] World History Practice Exam are written to the content specifications of AP Exams for this subject. Taking this practice exam should provide students with an idea of their general areas of strengths and weaknesses in preparing for the actual AP Exam. Because this AP World History Practice Exam has never been administered as an operational AP Exam, statistical data are not available for calculating potential raw scores or conversions into AP grades.

This AP World History Practice Exam is provided by the College Board for AP Exam preparation. Teachers are permitted to download the materials and make copies to use with their students in a classroom setting only. To maintain the security of this exam, teachers should collect all materials after their administration and keep them in a secure location. Teachers may not redistribute the files electronically for any reason.

AP[®] World History

Directions for Administration

The AP World History Exam is 3 hours and 5 minutes in length and consists of a multiple-choice section and a free-response section.

- The 55-minute multiple-choice Section I contains 70 questions and accounts for 50 percent of the final grade.
- The 130-minute free-response Section II, including a mandatory 10-minute reading period, contains 3 questions and accounts for 50 percent of the final grade.

A 10-minute break should be provided after Section I is completed. Section II begins with the mandatory 10-minute reading period, provided primarily for the document-based question. During the reading period students may make notes on the exam itself but they should not be allowed to begin actually writing the essays until the reading period is over. Students may move from one essay to the next as they finish.

The actual AP Exam is administered in one session. Students will have the most realistic experience if a complete morning or afternoon is available to administer this practice exam. If a schedule does not permit one time period for the entire practice exam administration, it would be acceptable to administer Section I one day and Section II on a subsequent day.

Total scores on the multiple-choice section are based only on the number of questions answered correctly. No points are deducted for incorrect answers and no points are awarded for unanswered questions.

- The use of calculators, or any other electronic devices, is not permitted during the exam.
- It is suggested that the practice exam be completed using a pencil for Section I and a pen with black or dark blue ink for Section II to simulate an actual administration.
- Teachers will need to provide paper for the students to write their free-response answers. Teachers should provide directions to the students indicating how they wish the responses to be labeled so the teacher will be able to associate the student's response with the question the student intended to answer.
- Remember that students are not allowed to remove any materials, including scratch work, from the testing site.

WORLD HISTORY SECTION II

Note: This exam uses the chronological designations B.C.E. (before the common era) and C.E. (common era). These labels correspond to B.C. (before Christ) and A.D. (anno Domini), which are used in some world history textbooks.

Part A (Suggested writing time—40 minutes) Percent of Section II score—33 $\frac{1}{3}$

Directions: The following question is based on the accompanying Documents 1-10. (The documents have been edited for the purpose of this exercise.)

This question is designed to test your ability to work with and understand historical documents.

Write an essay that:

- Has a relevant thesis and supports that thesis with evidence from the documents.
- Uses all of the documents.
- Analyzes the documents by grouping them in as many appropriate ways as possible. Does not simply summarize the documents individually.
- Takes into account the sources of the documents and analyzes the authors' points of view.
- Identifies and explains the need for at least one additional type of document.

You may refer to relevant historical information not mentioned in the documents.

1. Using the following documents, analyze the effects of the Cuban Revolution on women's lives and gender relations in Cuba in the period from 1959 to 1990. Identify an additional type of document and explain how it would help analyze the effects of the revolution.

Historical Background: Cuban revolutionary Fidel Castro assumed power after overthrowing the dictatorship of Fulgencio Batista in January 1959. Castro then began a radical restructuring of Cuban society along socialist lines.

Document 1

Source: Ofelia Dominguez Navarro, female Cuban socialist feminist, autobiography, reflecting on pre-revolutionary conditions, 1971.

A son was freed from paternal authority when he reached the age of majority, but both the mother and the daughters of the family had to tolerate that male authority as long as they lived with the father or the husband. Article 154 of the Spanish Civil Code states that the father exercises *patria potestad* [patriarchal power]. In spite of the military orders imposed by the United States occupiers in 1898-1902, the different laws passed by the Republic, and the new Constitution, the lower status of women, with the fluctuations imposed by time, remained in place. These conditions prevailed until 1959.

Document 2

Source: Yolanda Ferrer, female politician, General Secretary of the Federation of Cuban Women, speech, 2003.

In 1960, the Ana Betancourt School for Peasant Women was created. Over a few years' time, 14,000 young women from the countryside, including the most remote areas, came to Havana to learn basic job skills. The program included sewing, reading, and writing, and basic health and hygiene such as eliminating body parasites and fixing teeth. On Mother's Day parents coming to Havana to visit their daughters attending the school could barely recognize them because of the changes in their skills, confidence, and health.

In addition, the Schools to Upgrade Skills for Domestic Workers gave women training in skills that would enable them to break out of household work. As a result, Black women, formerly domestic servants, were for the first time hired as bank workers, a job from which they had previously been excluded.

Document 3

Source: Male Cuban revolutionary sympathizer, interview in Cuba with United States anthropologist, published in 1969.

I'm against women's liberation. Most of the older generation is also. The Revolution gave women a lot more freedom by giving them jobs, so now they don't depend so much on their husbands. I think that's not right. I expect my wife to stay home and look after the house. She has plenty to do here. She owes herself to me and the children.

Document 4

Source: Genoveva Hernández Díaz, age 17, teenage daughter of a Cuban revolutionary, interview in 1970.

Before the Revolution, women didn't have nearly as many opportunities as they do now. If they didn't sell themselves to some boss or some dictator, they didn't have a chance. The only other opportunity was to be a servant, scrubbing floors or taking in laundry. But now women are independent, free. A woman can work in the daytime, and if she wants to study, she can go to night school. Who ever studied before the Revolution? What money did they have to study with? What facilities for study were there?

There are a lot of older women who think women's liberation is terrible because women go around in the street like men and do men's work. But when *they* were young they sat in a chair all day doing embroidery or playing the piano or taking classes on this and that subject or stuffing themselves with food while waiting for their sweethearts to come and visit them. Those women never learned anything useful to themselves or to the Revolution. They regard liberation as a kind of hell. I, on the contrary, think it's a good thing because now women are equal to men.

Document 5

Source: Fidel Castro, Cuban president, speech to the Federation of Cuban Women, 1974.

There continues to be a certain discrimination against women. It is very real, and the Revolution is fighting it. It undoubtedly will be a long struggle. Women's full equality does not yet exist.

Document 6

Source: Alina Fernández in her memoir *Castro's Daughter: An Exile's Memoir of Cuba*, published in the United States, 1997.

In 1978, I asked for maternity leave [from medical school] and received instead a resolution whereby I had been expelled for having abandoned my field of study.

Motherhood and ration books are irreconcilable enemies. My infant daughter didn't even have a mattress when I got home, because I couldn't get one at the hardware store without a hospital certificate stating that she had been born alive. Our monthly ration of laundry soap was not enough for the inexhaustible pile of dirty diapers; nor was the fifteen yards of absorbent fabric enough to make the number of diapers needed.

There had been no water at home since the minister of transportation had a swimming pool built in his garden a few blocks down. And bananas, pumpkins, and taro roots, the traditional baby foods, existed only in our memory.

Now, in Cuba, there is a Family Code* that guarantees the equal rights of women in their homes. Everything is not different in a single day, but it has made a difference for us all. The day-care centers also help us develop our careers. My daughters are students in the public schools. The little one goes to a day school. My older daughter is a student at a five-day-a-week boarding school in the countryside.

Document 10

Source: Vilma Espín, female scientist, president of the Federation of Cuban Women and longtime member of the Cuban Communist Party's Central Committee, speech, 1989.

It cannot be denied that women have successfully burst into the economic life of our country. At present, 39 percent of the total labor force in the civil state economy is female, compared to 25 percent in 1974, and in some areas, like the city of Havana, the figure is 45 percent.

However, we have not yet seen the same progress on men's participation in the sphere of family life, in the fulfillment of their responsibilities as fathers and co-participants in the establishment and development of the family. Spouses with the same degree of work commitments do not yet shoulder an equal burden.

In many working families, women still bear the full responsibility for the education and formation of their children, as well as the organization of the household and household chores. This gives rise to the extremely unfair "double work shift" that exhausts women.

Free-Response Scoring Guidelines

Question 1—Document-Based Question

BASIC CORE (competence)

0–7 Points

1. Has acceptable thesis.

1 Point

- The thesis must include effects of the Cuban Revolution on both women’s lives and gender relations in the period from 1959 to 1990.
- The thesis must be explicitly stated in the introduction or the conclusion of the essay.
- The thesis may appear as one sentence or as multiple sentences.
- A thesis that is split among multiple paragraphs, or merely restates the prompt, is unacceptable. For example, “The Cuban Revolution had many effects on women’s lives and gender relations” would not be acceptable. The effects must be qualified in some fashion.

2. Understands the basic meaning of documents.

1 Point

(May misinterpret one document.)

- Students must address all ten documents in their essays.
- Students must demonstrate understanding of the basic meaning of at least nine documents.
- Listing the documents separately or as a group does not adequately demonstrate an understanding of basic meaning.
- Merely quoting from the document does not demonstrate basic understanding.

3. Supports thesis with appropriate evidence from all or all but one document.

2 Points

For 2 points:

- Evidence must be drawn from at least nine documents and must address the question.

For 1 point:

- Evidence must be drawn from eight documents and must address the question.

4. Analyzes point of view in at least two documents.

1 Point

- Students must correctly analyze point of view in at least two documents.
 - Point of view explains why a particular person might have this particular opinion or what particular feature informs the author’s point of view.
 - Students must move beyond mere description of that individual by considering and explaining the tone, the characteristics of the author, the intended audience, and/or how the intended outcome may have influenced the author’s opinion.
 - Mere attribution is not sufficient. Attribution is copying or repeating information verbatim from the source line of the document.

5. Analyzes documents by grouping them in two or three ways depending on the question.

1 Point

- Students must explicitly address the question by grouping the documents in three appropriate ways. Some examples of groupings include: men, women, political leaders, public documents, interviews, positive view of changes, negative view of changes, more changes needed. The analysis must involve an explanation of how the grouping explains the effects on or viewpoints of women’s lives and/or gender relations.

AP[®] World History
Free-Response Scoring Guidelines

Question 1—Document-Based Question (continued)

6. Identifies and explains the need for one appropriate additional type of document or source. 1 Point

- Students must identify an appropriate additional type of document or source and explain how the document or source will contribute to an analysis of the effects on women’s lives and/or gender relations.

Some potential additional types of documents:

- Additional documents by men—to explore the variety of male reactions to changes. Are there male reactions that are positive/negative from ordinary citizens in addition to Document 3? This would add to an understanding of the effects—particularly on gender relations.
- Additional documents from non-Cuban sources—to explore how those outside of Cuba analyze the effects. Are there substantial differences between Cuban documents and non-Cuban documents, in terms of views of the effects or in terms of data collected? Differences may highlight documents that are inaccurate or propagandistic in purpose.
- Documents with additional data about the economic effects on women’s lives. Do men and women make equivalent salaries for equivalent work? How do men and women fare economically after separation or divorce?

Subtotal 7 Points

EXPANDED CORE (excellence)

0–2 Points

Expands beyond basic core of 1–7 points. A student must earn 7 points in the basic core area before earning points in the expanded core area.

Examples:

- Has a clear, analytical, and comprehensive thesis.
- Shows careful and insightful analysis of the documents.
 - Recognition of the historical context of the documents.
 - Analysis of all ten documents.
- Uses documents persuasively as evidence.
- Analyzes point of view in most or all documents.
 - Thoughtful analysis of author’s background, intended audience, or historical context.
- Analyzes the documents in additional ways—groupings, comparisons, syntheses.
 - Inclusion of groupings beyond the three required.
 - Additional analysis of subgroups within a larger grouping.
- Brings in relevant “outside” historical content.
- Explains why additional types of documents or sources are needed.
 - Identification of more than one appropriate additional type of document.
 - Sophisticated explanation for the additional document.
 - Requests for additional documents woven into the essay and integrated into a broader analysis.
- Has a clear and comprehensive conclusion that brings argument into a meaningful perspective. (Cannot be used if conclusion is used for the thesis point.)

Question 2—Continuity/Change Over Time

BASIC CORE (competence)

0–7 Points

1. Has acceptable thesis.

1 Point

- The thesis must correctly specify both continuity(ies) and change(s) in African trading patterns during the specified time period and assess the effects of the changes.
- The thesis must be explicitly stated in the introduction or the conclusion of the essay.
- The effects of changes may be in the African region or the trading region or global.
- A thesis that is split among multiple paragraphs, or merely restates the prompt, is unacceptable.
- The thesis sentence(s) cannot be counted for credit in any other basic core category.
- The thesis may concentrate on only one continuity and only one change and may provide a general assessment of effects or a single effect.
- The thesis may appear as one sentence or as multiple sentences.

2. Addresses all parts of the question, though not necessarily evenly or thoroughly.

2 Points

For 2 points:

- The essay provides an accurate description of both continuity and change in African trading patterns within the time period specified and evaluates at least one effect of each.

For 1 point:

- The essay provides an accurate description of either continuity or change in African trading patterns within the time period specified and evaluates its effects.

3. Substantiates thesis with appropriate historical evidence.

2 Points

For 2 points:

- The essay provides four pieces of accurate evidence of continuity AND change in trading patterns.
 - Evidence for continuity and change must be concrete and relate to the specific African region or trading region.
 - At least one piece of evidence must be about continuity AND one about change.

For 1 point:

- Provides three pieces of accurate evidence of change AND/OR continuity.
 - Evidence for continuity and/or change must be concrete and related to the specific African region or trading region.

4. Uses relevant world historical context effectively to explain continuity and/or change over time.

1 Point

- Relates an appropriate global or transregional process to a continuity OR a change in African trading patterns with the trading region.
 - For example, introduction of Islam to West/East Africa and its effects on trading patterns, the effect of European exploration on trading patterns in East Africa, the rise of the Mughal Empire and East African trade, the continued prominence of the salt–gold trade in West African–Mediterranean trade.
 - This global or transregional process may be outside the specified time period.

5. Analyzes the process of continuity and/or change over time.

1 Point

- Evaluates or accounts for a change in trading patterns and its effect(s) in the African region or the trading region.

Question 2—Continuity/Change Over Time (continued)

EXPANDED CORE (excellence)

0–2 Points

The basic core score of **7** must be achieved before a student can earn expanded core points.

Examples:

- Has a clear, analytical, and comprehensive thesis.
- Analyzes both change and continuity.
- Provides even and ample evidence of continuity and change in African trading patterns.
- Provides even and ample evidence of the effects of continuities and changes.
- Addresses both broad world historical patterns and specific global historical developments in discussing global context.

Question 3—Comparative

BASIC CORE (competence)

0–7 Points

1. **Has acceptable thesis.** **1 Point**
 - The thesis correctly addresses at least one similarity and at least one difference in the diffusion of Buddhism and Christianity from their origins to the sixth century C.E.
 - The thesis must be accurate for both religions in the specified periods.
 - The thesis must be explicitly stated in the introduction or the conclusion of the essay.
 - The thesis may appear as one sentence or as multiple sentences.
 - A thesis that is split among multiple paragraphs, or merely restates the prompt, is unacceptable.
 - The thesis sentence(s) cannot be counted for credit in any other basic core category.

2. **Addresses all parts of the question, though not necessarily evenly or thoroughly.** **2 Points**

For 2 points:

 - Both the diffusion of Buddhism and Christianity and how both religions gained new followers.
 - Students may use different terminology.

For 1 point:

 - Either diffusion of Buddhism or Christianity and how that religion gained new followers.
OR
 - The diffusion of both religions or how both religions gained new followers.

3. **Substantiates thesis with appropriate historical evidence.** **2 Points**

For 2 points:

 - Provides at least **four pieces of specific evidence** for the diffusion of Buddhism and Christianity with at least one piece from each religion and at least one piece of evidence must refer to how both religions gained new followers.
 - Evidence must be appropriate to the specified time period.

For 1 point:

 - Provides **three pieces of specific evidence** for the diffusion and how Buddhism and Christianity gained new followers with at least one piece from each religion.
 - Evidence must be appropriate for the specified time period.

4. **Makes at least one relevant, direct comparison between or among religions.** **1 Point**
 - Makes at least one explicit, relevant comparison about the diffusion of Buddhism and Christianity or how both religions gained new followers.
 - The direct comparison must be distinct from the thesis statement.
 - The comparison must be in the specified time frame.

5. **Analyzes at least one relevant reason for a similarity or difference between Buddhism and Christianity in terms of their diffusion and/or how they gained new followers.** **1 Point**
 - May be an expansion of core point 2 or 4.
 - The causes or reasons must be clearly explained.
 - Typical sentence might be: “Missionary activity was essential for the diffusion of both Buddhism and Christianity, but the spread of Christianity initially depended much more on the travels and teachings of a single devotee (Paul), while the initial diffusion of Buddhism was more closely connected to merchant activities.”
